INFSCI 0020 Program Design and Software Tools
Homework 5
Due Oct 19, Tuesday

1. 40 Points

Do Exercise 8.14 (*Complex Number Revisited*). The book already provides overladed functions + and -. You can reuse the solution for the earlier homework on Complex Numbers.

2. 60 Points + 20 Extra Point Total

Do Exercise 8.19. You need to do only parts: a, b, c, and e. Implementation of Multiplication and overloaded << and >> operators will give you the 10 extra points each.
