iSchool Student Satisfaction Surveys

Student Responses for those graduating Fall 2012 (21 responses)

Definition of an iSchool (verbatim)

1. A program in which students learn about the different forms of information technologies and their uses.
2. A place where I learn how to understand, deal with, and handle with information in 21st century.
3. A school focused on preparing individuals for the information professions.
4. My definition of an "iSchool" is an education platform where most if not all of the education is made available online for distance learning.
5. Information science school.
6. Combination of online and classroom instruction, collaboration, and assignments. However I did attend 2 terms on campus.
7. 7. Courses here are much like courses in CS major, though much easier, but are very pragmatic and can put into real work. It's also one of the best schools in UPitt.
8. The school that teaches students how to design, implement and optimize information systems with developed theories and the newest technologies.
9. Handling, processing, and analysis of information.
